

Hazlett-Kincaid

Specialized Geological Modeling Services

SUMMER 2001 JOB LISTING - PLEASE POST

Company Name:

Hazlett-Kincaid, Inc.

Job Title:

Hydrogeology Internship

Job Type:

Intern

Wage/Salary:

5K to 7K commensurate with skills and duration

Days/Hours:

weekdays 8 to 5 through end of summer, 2001

Job Location:

Akron, PA

Openings:

1

Start:

May 2001

Company Description:

Specialized geological modeling services.
Groundwater flow, contaminant transport, solids and parameter modeling in 3D.

Qualifications:

Ideal candidate will be a junior/senior pursuing a B.S. in Geology, with a hydrogeology emphasis. Excellent math and computer skills a plus. Skills in MSOffice suite, web programming, illustration software, are all desired.

Job Description:

Successful candidate will work closely with Ph.D. scientists involved in sophisticated groundwater flow, contaminant transport, and solids and parameter modeling and will participate in day-to-day business. Duties may include data manipulation, field work, design and illustration of maps and figures, report writing, filing, web site maintenance, and much more. Individual must be able to perform many tasks well, as we are a small company. Work with museum curator to design and implement a science exhibit.
